### FEEDING DIRECTIONS

Feed Supra Wean w/Denagard as the complete ration to nursery pigs weighing 11 to 15 pounds.

**WARNING:** Withdraw 2 days before slaughter.

**CAUTION:** Do not feed undiluted. Do not feed to animals other than swine. The effects of Tiamulin on swine reproductive performance, pregnancy and lactation have not been determined. Use as the only source of Tiamulin. Swine being treated with Tiamulin should not have access to feeds containing polyether ionophores (e.g. Monensin, Lasalocid, Narasin, Salinomycin and Semduramicin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of mediated feeds.
